DIRECTORY

ALOHA from "Uncle Jack" Christensen, the old fool himself, still pursuing my career as the most unimportant person in the Hawaiian Islands, which is my only claim to fame and my little theme song.

This Web site is posted only as a comprehensive, annual bulletin board where you can locate all the answers to any questions you may have about my two Public Service Projects conducted in Honolulu -- The Clean Air Team and The Program To Preserve Hawaiian Place Names -- together with a few other items which might be of interest to you.
